*Examiner's Statement of Reasons for Allowance*

1. This office action is in response to the application filed on December 23, 2005.
2. Applicant amended claims 1, 18, 21, 22, 25-27, and cancelled claims 6, 19-20, and 31-37.
3. Claims 1-5, 7-18, and 21-30 are allowed
4. Claims include limitations that the prior art of record does not appear to teach or render obvious the claimed limitations as recited below.
5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of records fails to disclose the arbitration logic is coupled to receive and indication from a target node for particular transfer as to whether the particular transfer can be supported in the target node, wherein the initiator nodes supply requests to the arbitration logic for transmission of respective packets to target nodes during arbitration stages, the arbitration logic responsive to the initiator node requests to schedule packet transmission across the network.

The closest found prior arts are Grant et al. U.S Patent 5,218,602. Grant discloses a packet switching network for providing a communications path among a plurality of processors that handle messages at a source and a destination, and all control message processing and packet data transmission are synchronized, and processing tasks performed by each of the network subsystems are pipelined so that they occur simultaneously. However, Grant fails to teach the arbitration logic is coupled to receive and indication from a target node for particular transfer as to whether the particular transfer can be supported in the target node, wherein the initiator nodes supply requests to the arbitration logic for transmission of respective packets to target nodes during arbitration stages, the arbitration logic responsive to the initiator node requests to

schedule packet transmission across the network and in combination with other limitations as set forth in the independent claims. Claims 2-5, 8-17, 21-27, and 29-30 are allowed due to dependent claims.

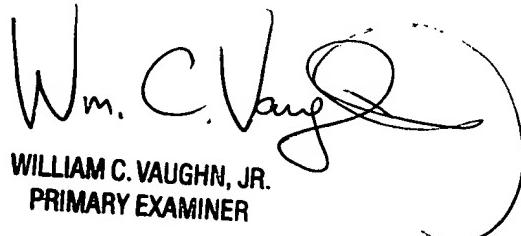

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
